**THE KING IS OUT...
SO IS THE THRONE**
daring the unthinkable

What happens when a company makes a product that is a piece of art... well it is a pity to limit its use. That's the idea behind Drake's new chair. A design team was asked to deliver Drake's bathroom thrones into the spotlight of the dining area.

Ellette was born. R&D Why Not Plastic Inc. design for Drake Corp.

The squared geometric lines of the legs blend harmoniously with the roundness of the seat and back creating not just a chair, but an innovative, radical, modern, comfortable piece of art.
