FAN chair

COMFORTABLE

The high back provides comfort and support for the back, ideal for prolonged seating.

The 1/4" flexible padded resin seat is more comfortable than the wood seat. It snaps in and snaps out in a flash without any tools or screws:

- won't warp with humidity
- more comfortable because of the flexibility of the material they are made from.

SOLID: Tested at 500 lb.

EASY To Handle & Maintain

No more hanging on racks as with similar chairs!!!

Our chairs are folding, stacking (horizontally and vertically), and come equipped with an interlocking feature that makes moving and storing them quite simple.

They are strong, durable, weatherproof, UV protected, never need painting and require very little maintenance.

Patented

DIMENSIONS

Flat Chair dimensions: 17.3" x 41.5" x 2.3"

STRUCTURE chair

Patented

CHIP chair

Chip and Structure both use the same basic materials and have the same finish. They are bi-component resin made. It means that they are both built with two materials that have different properties working as one: extreme UV protection and strength. They have the same light weight, only 10lb. The main difference between Chip and Structure chairs is the technology used to manufacture them. CHIP chairs have a hollow core, in order to match the same thickness of the wood. STRUCTURE chairs are solid all the way through (no hollow core).

DIMENSIONS:

Flat Folding Chair dimensions: 17 3/8" x 35" x 2 1/3"
Net weight: 10 lb. including padded seat.

SHIPPING:

Both Structure and Chip chairs come in a box of 5 ea., 18"x36"x13" at 52 lb.

COMFORTABLE

The 1/4" flexible padded resin seat is more comfortable than the wood seat. It snaps in and snaps out in a flash without any tools or screws:

- won't warp with humidity
- more comfortable because of the flexibility of the material they are made from.

STRONG: tested at 500 lb.!!!

LIGHTWEIGHT: 10 lb. only

EASY To Handle & Maintain

Both Chip and Structure are folding, stacking (horizontally and vertically), and come equipped with an interlocking feature that makes moving and storing them quite simple. They are strong, durable, weatherproof, UV protected, never need painting and require very little maintenance. Our chairs can be used with chair washing machines.
